

The course of training offered for the Native American Natural Exfoliation is a **two (2) day course. During this training period there will be a great deal of information imparted to the student.**

The first part of the program involves the hands on training of the Natural Exfoliation. The student will work on 8 models over two consecutive days. The ultimate goal is to teach the student to perform the exfoliation in one hour.

The second part of the program deals with the products used by the skin care professional as the back bar. There are also products, which the Tiger's Eye offers for home care and there will instruction given as to how these products will benefit their future clients.

The entire cost of the two-day program is \$ 700.00. It not only includes the training and information but includes the actual back bar for the trained student to begin work immediately. Included in the back bar is
